

## ISRAEL

With the worldwide port backups, container shortages, driver shortages causing many delays, our Israel shipment finally went out and our next shipment is in preparation.

**GLORY TO GOD!**

With shipping costs nearly doubling, your financial blessings are appreciated more than ever. Thank you- Beyond !!!

## GUATEMALA

Doña Elista was once a very active woman, gainfully employed and enjoying being her family's caretaker. Due to a diagnosis of diabetic neuropathy, she is no longer able to work or move with the agility that she once had... **"I am so thankful for this equipment that allows me to walk throughout my home and alleviates the pain in my legs and feet,"** Elista said. **"In the name of God, I bless the work of the donors for the many families they help."** She continued, **"It is only through your generosity that many of us are able to receive these much-needed items. Thanks to you, I am able to walk without pain again."**

**"The walkers have helped so many people. These are items that are not affordable - the health care is difficult. There is one assisted living facility that we visited where most residents needed an assistive device to walk.**

**They were all so grateful to receive a walker."**

said Byron Paredes, our in-country partner representative.

**This year, JZRL has sent 5 shipments to Guatemala which included hundreds of walkers and ambulatory equipment. Another 5 are scheduled for this month.**

*God bless you & guard you - over and above ALLLLL!*

*Barry Toní & your JZRL Family*
