JZRL

MIRACLES HAPPEN!

August 2021

Prayer & Provision for Israel & haiti

Some 711,000 Israeli families – 2.4 million people – have been hurt financially by the c19 pandemic, according to a recent calculation by the National Insurance Institute. About 42,500 households have fallen below the poverty line and another 110,000 have come close to "poverty risk" levels.

The NII's research shows that the pandemic has impacted the income of every layer of society.

Thankfully, **JZRL** has a shipment on the water right now that will be arriving very soon.
The next shipment is in preparation and should be ready by mid August.

We thank you *so very much*, **JZRL** Angels for 'lending to the Lord!'
